To: David Scanlan, Secretary of State
Ballot Law Commission
Representative Ross Berry, Chairman of Election Law Committee
Senator James Gray, Chairman of Election Law and Municipal Affairs Committee

From: Appointed Audit Team for the November 2026 General Election

Date: Friday, November 6, 2026

RE: **November 2026 General Election – Audit of Electronic Ballot Counting Devices**

Audit Report – 2026 State General Election

Overview:

The audit of electronic ballot counting devices was determined successful by the appointed audit team, with all results within expected range.

The audit of the 2026 State General Election was conducted on eight electronic ballot counting devices across 8 polling locations in accordance with RSA 660:35, and one electronic ballot counting device in accordance with RSA 660:32.

Polling Location	Type of Device	Serial Number	Statutory Authority
Hudson	Liberty Votes	VAL21310493	660:35
Manchester Ward 7	Liberty Votes	VAL22500016-004	660:35
Concord Ward 4	Liberty Votes	VAL26020171-005	660:35
Laconia Ward 5	Liberty Votes	VAL23510043-004	660:35
Moultonborough	VotingWorks	SC-13-075	660:35
Portsmouth Ward 2	VotingWorks	SC-12-053	660:35
Rochester Ward 3	VotingWorks	SC-12-058	660:35
Woodstock	VotingWorks	SC-13-079	660:35
Nashua Ward 9	Liberty Votes	VAL24280040-005	660:32

Audit locations for audits conducted under RSA 660:35 were randomly selected after all ballot counting device memory cards and election definition packages were programmed. RSA 660:35 required the selection of one electronic ballot counting device in each of the randomly selected locations. In those polling locations with multiple electronic ballot counting devices, the selected device was the device with the highest number of cast ballots at the time the Secretary of State's representative delivered the audit location notification letter to that polling

location's election officials.

The audit location conducted under RSA 660:32 was selected by the Secretary of State, and the serial number of the chosen device was pre-identified.

All audits remained strictly confidential until Election Day. Once all notification letters were delivered by the Secretary of State's representatives to the audit locations' election officials, the selected audit locations were announced to the public in a press release. Audits were required by law to be completed by Friday, November 6, 2026 at 12:00 P.M. with the accompanying report of results. All audits were open to the public.

Only those ballots counted by the selected electronic ballot counting devices were audited. Audit equipment procured by the Secretary of State's office processed the paper ballots for each audited device. This report documents the comparison between the audit equipment's report of ballots cast and the results of the relevant device. A random sample of 50 ballots – or 2% of all ballots cast, whichever amount was larger – processed by the selected ballot counting device was physically examined against the voter's choices recorded by the audit equipment.

Random Selection:

RSA 660:35 requires the Secretary of State to "randomly select not less than 8 ballot counting devices used by towns or city wards to be audited." In making this selection "[t]he secretary of state may divide towns or city wards into groups for the selection based on criteria such as the device vendor or estimated number of election day ballots to be processed." This selection is non-public, and the selection must "be made after the ballot counting device memory cards have been programmed."

The Secretary of State confirmed all VotingWorks election definition packages and Liberty Votes memory cards were programmed on Friday, October 16, 2026. At that time, all polling locations audited under RSA 660:35 were selected.

Random selection criteria for the 2026 State General Election was based first on the type of electronic ballot counting device used in that polling place and then on the total number of voters registered at that polling location. A spreadsheet with the number of registered voters at each polling location was created, separated by whether that polling location utilizes a VotingWorks or Liberty Votes ballot counting device.

Based on the market share of ballot counting devices across the State of New Hampshire for the 2026 State General Election, Secretary Scanlan determined that four VotingWorks ballot counting devices and four Liberty Votes ballot counting devices would be audited. VotingWorks and Liberty Votes polling locations were then divided into four equal-sized quartiles organized from the most to least number of registered voters.

One random polling location was selected from each of the above quartiles. The total number of polling locations in each selection table was placed into Google's random number generator, and random numbers were generated for each required selection. The polling location with the corresponding random number from that quartile was selected, and one device within each of the selected polling places was audited. For those polling locations with multiple devices, the device with the highest number of cast ballots at the time the Secretary of State's representive delivered the audit notification letter was chosen.

Audits:

On election day, representatives of the Secretary of State's office arrived at the chosen locations prior to noon and informed election officials that a device within their polling location was selected for the audit. Representatives remained at the polling locations, paying close attention to the selected electronic ballot counting device and ensuring no hand-count ballots or ballots from other devices were commingled with the audited ballots. Ballots were sealed in

provided plastic ballot boxes.

The audit of the selected Liberty Votes and VotingWorks electronic ballot counting devices took place on Wednesday, November 4th and Thursday, November 5th, 2026 at New Hampshire Archives and Records Management.

The Audit Team declared each audit a success and determined that all results were within expected margins.

Hudson – Liberty Votes Audit Results

All discrepancies are within expected margins. There were no discrepancies detected in the physical examination of random ballots against the voter choices recorded by the audit equipment.

Exhibit 1 fully documents all votes credited to a candidate or question by the election day results versus the audit equipment. The below tables document all races with discrepancies (highlighted in yellow) in Hudson.

Race: State Representatives – Hillsborough District 13

Manchester Ward 7 – Liberty Votes Audit Results

All discrepancies are within expected margins. There was one discrepancy detected in the physical comparison of random ballots against the voter choices recorded by the audit equipment; in that instance, a voter had presumedly scribbled through the oval corresponding with “No” and attempted to fill in the oval corresponding with “Yes” on Statutory Question 2. (See below). However, the voter’s mark on the ballot is only slightly within the oval. Because this ballot came from an electronic ballot counting device programmed to reject all overvoted ballots, the audit team theorized the ballot counting device, which did not detect a “Yes” vote, was less sensitive than the audit equipment, which detected both a “Yes” and “No” vote.

STATUTORY QUESTION REQUIRED BY HB 1300, CHAPTER 324, 2026

2. Shall the City of MANCHESTER - Ward 7 limit property tax growth for MANCHESTER SCHOOL DISTRICT (SAU #37) under RSA 32:5-i? If adopted for a two-year period: (1) the local property tax levy may not grow beyond the prior year's amount, adjusted for inflation and new construction; (2) SAU central office spending may not exceed 6 percent of total school district appropriations; and (3) bonded capital costs are excluded from both limits. These caps apply only to administrative operations of the SAU central office and do not affect classroom instruction, school-based services, or other municipal expenditures.
These limits may be overridden as provided in RSA 32:5-i. Adoption requires a three-fifths (3/5) majority vote."

YES

Exhibit 2 fully documents all votes credited to a candidate or question by the election day results versus the audit equipment. The below tables document all races with discrepancies (highlighted in yellow) in Manchester Ward 7.
